All presentations by project partners are published at the project web page.

In the discussion after first day some issues were emphasized as procurement of specialized software for mobility and creation of joint SWOT analysis for Internationalization and SWOT analysis for recognition qualifications for Bosnia and Herzegovina.

During the 2nd day of the meeting project coordinator Mr De Lepeleer said that the report from this meeting should to describe all important outcomes and decisions made at this consortium meeting.

Related to staff costs project coordinator Mr De Lepeleer explained that all partners can start with submission of all documents for staff costs in accordance with ensured following documents:

1. Employment contract in your language original scanned + translated copy in English without signature.
2. Pay slips from months for which you were engaged for realization of project activities in staff convention and timesheets.
3. Filled staff convention (please find my example in the attachment)
4. Filled timesheet (please find my example in the attachment)
5. Material evidence of performed job (I will put all project products very soon on the project web page).

Representative of the University of Tuzla prof. Maric said that this university needs to have ensured finances on the university account by the project coordinator in order to can ask these finances for payment.

All participants agreed that all results need to be published at the projects' web page.

Project coordinator informed participants to be hurry related to sending their specification for equipment and books to national coordinator in order that they can revise the list and approve the procurement. Central procurement will be done under leadership of the University of East Sarajevo in accordance with national legislation. All participants will be on time informed about all steps. Also, all partners informed that they should predict in the financial plan of the University amount of 15.000 EUR for the procurement in the next year.

Related to subcontracting project coordinator thanked to all partners who send confirmation with the new way of subcontracts. Instead of a lot number of subcontracts as predicted in the project application, but with the aim of facilitating of this process, consortium decided that project coordinator on the basis of couple offers collected in B&H by project partners make agreement directly with the provider for certain service. For this, the project coordinator will send new annex for subcontracting to all partners for signature and stamping. This activity should be done very quickly because of the process procurement dissemination material has to start as early as possible.

It is agreed that proposer of EU brochure for internationalization has to add KPI into this brochure, and after this addition, to send it to partners in B&H on revision and giving suggestions.

All participants agreed that is necessary to develop Manual for strategic planning for higher education institutions. UES took responsibility for this job.

Signing of Quality Policy Statement should be corrected by KU Leuven side in the way that authorized person from KU should sign this Statement. KU Leuven decided that rector of this university should sign this document, but firstly central administration of KU Leuven should revise this document, and after that to send it on signature to all partners.

Representative of CIP promised that he will present the STINT project on the Ministers' conference of B&H, and consortium asked the report from that presentation.

All minutes from held meetings are discussed and participants agreed that each report should be revised at first next meeting.

Politecnico do Porto will conduct creation of external evaluation report. Ms Vieira asked from coordinator the example of any external evaluation report in order to create external report for this project in accordance with previous good experiences. Also, all partners have to send their internal reports. Only 4 partners haven't sent these reports: UNBI, MPKRS, BUCKS, KU.

All presented partners (12 in total) presented their internal forms where mentioned everything important for realization of activities (indicator of progress, outcomes and description). All presentation will be available on the project web page.

Dissemination and sustainability plans are not revised because there is no necessity for that. Before next monitoring visit these plans will be updated regularly.
